MISSOURI RECYCLING ASSOCIATION

Our Mission:

To lead Missouri toward environmental sustainability through waste reduction and recycling.

Our Values:

We Encourage and Support Waste Reduction

- By providing information, educational opportunities, and technical support in partnership with state, national and regional organizations.
- By providing information and technical support to help consumers, institutions, businesses and governments reduce waste, recycle and buy recycled products.
- By reducing waste through consumer purchasing decisions.
- By recovering waste with safe and affordable systems for collection and processing.
- By promoting pollution prevention and the efficient use of resources to protect the air, water and land.

We Foster a Diverse and Active Membership

- By providing a forum for sharing information through workshops, meetings, summits, and an annual conference.
- By encouraging our members to cooperate on a regional level to share experiences and encourage market development for recovered materials.
- By partnering with businesses, institutions, governments and regional organizations to advance education and share resources.

We Promote Sustainability

- By developing local "waste-based" industries to manufacture products from recovered materials.
- By supporting legislation that positively affects waste reduction, waste diversion and recycling efforts in Missouri.
- By reducing demand on natural resources through education, waste reduction and recycling.
